

Borough of Chambersburg

A full-service municipality in Franklin County celebrating over 65 years of consumer owned natural gas service over 120 years of community electric and a regional wastewater, water, storm sewer and municipal solid waste utility

FOR IMMEDIATE RELEASE

Flockworks Goat Grazing To Clear Overgrown Land Along Conococheague Creek And Rail Trail In Chambersburg

April 30, 2024 – FOR IMMEDIATE RELEASE

Chambersburg, Franklin County – We are pleased to announce that Town Council again authorized the Borough Storm Sewer Utility to hire FlockWorks, Orrstown, PA, to provide guided goat grazing to clear overgrown land along the banks of the Conococheague Creek adjacent to the Rail Trail between West King Street and Commerce Street. In 2023, Town Council first authorized this expenditure, which proved to be a cost-effective way to remove overgrown and invasive vegetation from the banks of the creek adjacent to the Rail Trail. The goats were also popular with the public, providing an interesting and educational viewing experience for people that use the Rail Trail.

Starting in early May 2024, FlockWorks will fence and sign areas along the banks of the Conococheague Creek where goats will graze, starting south of Commerce Street and then moving towards West King Street. FlockWorks will be responsible for maintaining and monitoring the areas where goats graze. Please see below goat rules provided by FlockWorks. You can learn more about FlockWorks by visiting their website at <https://www.flockworks.us/>.

- Keep dogs away! The fence is ELECTRIC and the goats need to feel safe!
- Do not allow any dogs, even lap-sized dogs, to chase the goats or even patrol the fence.
- Do not feed the goats! Their job is to eat the vegetation in the fenced area.
- Do not add any plants! Many yard plants are poisonous to goats!
- Do not touch the fence! Again, ELECTRIC fence. Painful!
- Know that the area is monitored, using more than one method. You may see a camera or two, but there is more than meets the eye.

We encourage you to take a walk on the Rail Trail to check out the goats and to contact Andy Stottlemeyer, Storm Sewer System Manager, at 717-251-2434 or astottlemeyer@chambersburgpa.gov, if you have questions about the Storm Sewer Utility.

About Chambersburg:

Chambersburg is a unique community. Chambersburg supplies more services than any other municipality in the Commonwealth of Pennsylvania. In addition to typical town functions, Chambersburg is Pennsylvania's only municipality providing electric and gas to residents and businesses. Chambersburg is 1 of 35 Boroughs to operate a municipal non-profit electric utility. Chambersburg is the largest municipal electric utility in the State, twice as large as the second largest, Ephrata, Lancaster County; and, the only one to operate multiple generation stations. Chambersburg is 1 of 2 municipalities in PA to operate a natural gas utility. The other is Philadelphia, which does not operate an electric utility. Nationally, Chambersburg is 1 of 2,000 communities to have its own electric system and 1 of 1,000 communities to have a natural gas system but 1 of only about 60 to operate both. Chambersburg manages a regional water system, a regional sanitary sewer system (not through an independent Authority), and a new storm sewer utility; one of the first storm sewer utilities to form under the new Federal mandate to regulate stormwater. Chambersburg has a famous Aquatic Center as well. Chambersburg, the County Seat of Franklin County, currently has 22,172 residents (2022) and over 11,000 utility customers.
